FREE GARBAGE SYSTEM IF PEOPLE WANT IT MORE 'QUAKES IN SAN FRANCISCO

Small Tax Will Pay For Service

One-Twentieth Of Mill Would
Provide For Adequate
Collection

An increase in the tax rate on Oahu of one twentieth of one per cent will provide the city and county of Honolulu with a free garbage service and double the present facilities that are in use by the department.

The plan of increasing the tax rate in the city and county for the establishment of a free garbage service is endorsed by Governor Frear and the territorial health administration, the governor believing that it is the most important step that can be taken toward the permanent improvement of sanitary conditions in Honolulu.

The expenses of the garbage department for the last calendar year amounted to \$15,642.69 and the doubling of this amount for improvements and extensions, on an assessed valuation of \$25,000,000, will give an additional increase in the tax rate of one twentieth of one per cent.

In a statement made this morning Senator Frear said that he was in favor of an increase in the tax rate for the establishment of a free garbage service.

"As a rule I believe people should pay directly for benefits received," the Governor said. "In this case, however, everybody would make use

URGES REGULAR SYSTEM OF VOLUNTEER INSPECTORS TO HELP IN OUTSIDE DISTRICTS

A regular system of volunteer sanitary inspectors to assist in looking after the outside districts is advocated by B. F. Boardmore, who did much useful service on Clean-Up Day as an inspector. In a letter to President Mott-Smith of the Board of Health, Mr. Boardmore says:

"As an inspector of one of the outside districts—the west side of Manoa Valley—on Clean-Up Day, I had plenty of opportunities to observe some of the difficulties with which the health inspectors have to contend. Instead of condemning, I think it would be far better and more to the point to show our appreciation of their arduous duties."

SPECIAL TRIP TO VALLEY ISLE

KALIHI LAND BRINGS \$12,000

As a courtesy to the Maui people who had been instrumental in arranging a big program of sports for the Fourth of July, Manager J. A. Kennedy of the Inter-Island Steam Navigation Company decided at noon today to dispatch the steamer Maui for Kauai, that vessel to make a special trip to the Maui port.

The Maui will leave Honolulu at 7 o'clock on Monday evening. At the noon hour today between fifty and sixty applications for transportation had been received.

There is said to be an interesting program in store for the excursionists in Kalihi in the excursion trip to the other side. It is predicted that before dinner time there will be at least one hundred Honoluluans included in the

It's Up To You, Mr. Citizen! Poor First, Two Shocks Declares Report Felt At 2 p.m.

Funds For Fourth Have Been Given

Five hundred dollars has been subscribed jointly by the Chamber of Commerce and Merchants' Association for special Fourth of July features, and Chairman E. A. Berndt of the special committee arranging the general celebration of the day announced this morning that no soliciting of subscriptions will be necessary.

Each of the commercial bodies has pledged \$250, and as the expenses will be light, the committee does not expect to exceed this amount. The money is to be spent as follows:

Kapiolani Park sports.....	\$150
Aquatic sports in harbor.....	100
Ball at Young Hotel	125
Incidentals	125

Ed Touse, who is in charge of the sports at Kapiolani Park, is framing up everything from a potato race to a speed contest for mules, and there will be Japanese wrestling, motor cycle and bicycle races, besides the sprints. Captain Berger and the Hawaiian band will be in attendance.

At the harbor the aquatic contests will be held from 2 to 4 o'clock. Unfortunately, the Hesland Boat Club and it is expected that Governor Frear will not be able to enter the races, but other officials will be in the

Myrtle club has promised to turn out several crews. Rowing races will play from 7:30 to 9:30 o'clock, and be held also between cutter crews from the British war vessels, Kent and Chal-

TO PLAN FIGHT ON COTTON PEST

Hawaiian cotton-growers hold a special meeting at 2:30 o'clock this afternoon at the Commercial Club to plan for a campaign against the bollworm that is threatening Island cotton crops.

Dr. E. V. Wilcox, director of the Federal experiment station, and others have been working on this matter for several weeks, and the meeting this afternoon is expected to result in definite plans for raising \$1500 toward a fund that will be used in getting a parasite to prey on the boll-

worm. J. P. Cooke has already guaranteed \$1500 and an individual or committee will probably be designated this afternoon to raise the other half of the necessary amount.

David T. Fullaway, the entomologist who is now at Guam investigating a pest that is attacking the coconuts there, is the man wanted to go to India in search of a parasite for the bollworm, and the cotton growers' association will discuss this afternoon whether or not he can be secured.

Tomorrow over three hundred men from H. M. ships Kent and Challenger will attend the 11 a. m. service at St. Andrew's Cathedral. The Bishop will preach a special sermon.

There is a great advantage to advertisers in not OVERSTATING your proposition. Give the public a little BETTER merchandise and a little better service than you promise in your advertising, and the results will more than pay you.
